However there are several things you can do that will help you grow your mafia, get Godfather points and put you on a very fast track to becoming a Mafia Wars Godfather in no time.

I am a visual learner, amazed till this moment that I really felt like my "hand was being held" to guide me. I kid you not, unlike other programs I came across it was just several things I didn't feel right about. Such as, no tutorials, video step-by-step was not given, no testimonials I came by I felt were real, in addition I felt the fake hype that other programs said "Do it in just a minute"! I like to say that I got my hard earned money worth, with the videos attached of step-by-step on how to download it to the SD card, plus I received bonus free e-book guides on every subject that benefits every Wii gamer out there I can imagine!

There are only a few good game copy software products on the market and I'll share information on one of them at the end of this article. A good program is intuitive, easy-to use and will come with step-by-step instructions. These instructions usually consist of three steps. The first step is to install the program on your PC. When the program is installed, you will need to insert your original disc and creating a copy, or "image" of the disc on your computer. The last final step is inserting a blank recordable disc onto which the game copy program will burn your image. If you choose the right game copy product, this process will be quick, easy, and you get an exact copy of the game.
